

EL MOUNTASSIR Saad

JUNIOR SOC ANALYST

+212 7-62-84-74-83 ✉ elmountassirsaad7@gmail.com 🌐 [Portfolio](#) [LinkedIn](#)

PROFESSIONAL SUMMARY

Junior SOC Analyst with hands-on experience in threat detection, log correlation, alert triage and incident response automation. Skilled in SIEM/XDR, IDS/IPS, MITRE ATT&CK-based detection rules, FIM, threat intelligence enrichment, and SOC dashboards. Able to simulate attacks, analyze security events, and improve detection capabilities in lab environments.

PROFESSIONAL EXPERIENCE

Full-Stack Security Engineer Intern May 2026 - Present

CleverCube AI

- Improved the security posture of a medical imaging platform by implementing OWASP Level 2 controls, including JWT authentication hardening, CSRF protection, rate limiting, and secure file validation.
- Built and configured the CI/CD pipeline for the application.
- Studied and applied CNDP / Loi 09-08 compliance requirements for sensitive health data processing.

Cybersecurity Trainee — SOC & Infrastructure Oct 2025 - Mar 2026

JobInTech | Ministry of Digital Transition (MTNRA) × CDG × Maroc Numeric Cluster

- Deployed and configured Wazuh SIEM/XDR for log collection, correlation, FIM and real-time detection.
- Simulated 11 attack scenarios from Kali Linux and created 8 custom Wazuh rules mapped to MITRE ATT&CK.
- Integrated Suricata IDS/IPS with pfSense and VLAN segmentation for network monitoring.
- Automated alerting with Python/Bash, Telegram notifications and Jira ticket creation.
- Enriched alerts using AbuseIPDB and VirusTotal threat intelligence.
- Built dashboards in Azure Data Explorer/KQL for SOC monitoring.

Security Intern — DevSecOps & Application Security Apr. - Jun 2025

ZYNERATOR | Site Gantour OCP

- Implemented DevSecOps pipeline with GitLab CI/CD, Docker containerization, SAST/DAST scanning (Semgrep, OWASP ZAP), image scanning (Trivy), and secret detection (Gitleaks).
- Black-box attack simulation (multi-threaded Python brute force) to assess the security of the authentication module.

PROJECTS

- Secure network architecture (GNS3):** VLAN, VTP, inter-VLAN routing, NAT, ACL, DMZ, VPN, firewall (Fortigate), IDS/IPS, network analysis with Wireshark, security testing with Nmap, OpenVAS, Metasploit.
- Implementation of a DevSecOps approach on the OCP's Gantour site:** CI/CD with GitLab, Docker containerization, SAST/DAST with Semgrep, OWASP ZAP, image scanning with Trivy, Gitleaks, dependency analysis with Retire.js.
- Audit and hardening of Linux systems:** Security audit in accordance with ANSSI and DGSSI recommendations, configuration analysis, vulnerability scans with Lynis and OpenVAS, system hardening.
- Application Development & Comprehensive IT Security:** SIEM/EDR Administration (Wazuh), NIDS Intrusion Detection (Suricata), Network Security (pfSense, VLANs), Cloud (AWS). Automation of alerts via Python/Bash with Telegram notifications and Jira ticketing, reducing MTTD/MTTR. Simulation of attacks from Kali Linux — real-time detection with 8 custom Wazuh rules mapped to MITRE ATT&CK (levels 8-15), Automated Active Response (firewall-drop, host-deny, kill-process), Python CTI pipeline enriching alerts via AbuseIPDB + VirusTotal Smart Trigger, Azure Data Explorer dashboard with 9 KQL tiles, 5 SOC L1 playbooks, and real-time FIM.

CORE COMPETENCIES

- SIEM & Monitoring :** Wazuh (SIEM/XDR), log collection & correlation, File Integrity Monitoring (FIM), alert triage
- Detection & Response :** Intrusion detection, incident response, threat hunting, MITRE ATT&CK framework, Playbooks SOC L1, FIM, AbuseIPDB, VirusTotal, KQL
- Network Security :** pfSense, Suricata IDS/IPS, VLANs, VPN (OpenVPN), FortiGate, Wireshark, Nmap, ACL, NAT
- Vulnerability Assessment :** OpenVAS, Lynis, Metasploit, Semgrep, OWASP ZAP, Trivy, Gitleaks
- Systems & Cloud :** Linux hardening based on ANSSI/DGSSI guidelines, Windows Server, Active Directory, GPO, AWS (EC2, S3)
- DevSecOps & Automation :** GitLab CI/CD, Docker, Python, Bash, Jira, TCP/IP, Zero Trust, Azure Data Explorer, Threat Intelligence, CIS Benchmark

EDUCATION

BACHELOR'S DEGREE IN CYBERSECURITY 2024 - 2025

Faculty of Sciences and Technology — Gueliz, Marrakech

DEUST (2-YEAR UNIVERSITY TECHNOLOGY DIPLOMA) 2021 - 2024

Faculty of Sciences and Technology — Gueliz, Marrakech

CERTIFICATIONS & LANGUAGES

- Certifications :** ISC2 Certified in Cybersecurity (CC) • Networking Basics (Cisco) • Network Defense (Cisco) • ISO/IEC 27001 Associate
- Arabic: Native** | French: Professional working proficiency | **English:** Professional working proficiency
